List of publications, Ivar Gustafsson

2. Ivar Gustafsson. Iterativ lösning av ekvationssystem där koefficientmatrisen har komplexa egenvärden. Report 75.05, Department of Computing Science, Chalmers University of Technology, Göteborg, Sweden, 1975 (swedish).

14. Owe Axelsson and Ivar Gustafsson. A preconditioned conjugate gradient method for
finite element equations which is stable for rounding errors. In *Information Processing 80*,

15. Ivar Gustafsson. On modified incomplete factorizations. In *Colloquium numerical
solutions of partial differential equations*, J G Verwer (ed), MC Syllabus 44, Mathematisch
Centrum, Amsterdam, Holland 1980; 41-53.

16. Owe Axelsson and Ivar Gustafsson. Quasioptimal finite element approximations of first
order hyperbolics and of convection-dominated convection-diffusion equations. In *Analytic
and numerical approaches to asymptotics in analysis*, L S Frank and A van der Sluis (eds),

17. Ivar Gustafsson. On modified Incomplete Factorization Methods. In *Numerical Inte-
gration of Differential Equations and Large Linear Systems, Lecture Notes in Mathematics

18. Owe Axelsson and Ivar Gustafsson. Preconditioned and two-level multigrid methods

19 Ivar Gustafsson. Modified incomplete Cholesky (MIC) methods. In *Preconditioning
Methods - Theory and Applications*, D Evans (ed), Gordon and Breach Publishers, New

20. Ivar Gustafsson. A preconditioned iterative method for the solution of the Biharmonic

21. Owe Axelsson and Ivar Gustafsson. An efficient finite element method for nonlinear
diffusion problems. Report 84.06 R, Department of Computing Science, Chalmers University

22. Ivar Gustafsson and Gunhild Lindskog. A Preconditioning Technique based on Element

23. Ivar Gustafsson. A class of preconditioned conjugate gradient methods applied to finite
element equations. In *Preconditioned Conjugate Gradient Methods, Proceedings, Nijmegen
1989 Lecture Notes in Mathematics 1457*, O Axelsson and L Yu Kolotilina (eds), Springer-
Verlag 1990; 44-57.

24. Owe Axelsson and Ivar Gustafsson. An efficient finite element method for nonlinear

25. Ivar Gustafsson and Gunhild Lindskog. Parallelizable incomplete factorization precondition-

26. Ivar Gustafsson and Gunhild Lindskog. Implementation of an approximate SSOR
preconditioner on the CM-200. In *Progress Report 1993, Center for Parallel Computers
