

# Evaluation of Fourier & Wavelet analysis 06/07

## Overall

Your overall evaluation of the course: very bad     very good

Comments:

How does the course content and the realization conform to the available information (in relevant documents, from study counsellors, etc.)?

very badly     very well

Comments:

The realization of the course shall not imply discrimination against anyone on, e.g., gender, ethnic, age, or family grounds. This objective does not only include the attitudes of the professors and the students, but also other things like, for example, schedules. If it has not been attained, please describe in what way!

Comments:

## Course planning: how do you evaluate

The schedule: very bad     very good

The relative distribution between lectures, problem sessions, and other activities:

very bad     very good

*if you think that the relative distribution is bad or very bad, do you think that*

*the proportion of lectures should be* increased  *or*  *decreased*

*the proportion of problem sessions should be* increased  *or*  *decreased*

*the proportion of other activities should be* increased  *or*  *decreased*

The administration (information, hand-out, etc.): very bad     very good

Comments:

## The literature - please tick the appropriate box!

It is at the right level. I disagree completely     I agree completely  
It is suitable for the course. I disagree completely     I agree completely

Comments:

## The lectures - please tick the appropriate box!

They were well adapted to the literature and other course material.  
I disagree completely     I agree completely

They made comprehension of the course content easier.  
I disagree completely     I agree completely

They were well structured and easy to follow.  
I disagree completely     I agree completely

Comments:

## Problem sessions, computer assignments and other activities - please tick the appropriate box!

They were relevant. I disagree completely     I agree completely  
They helped my learning. I disagree completely     I agree completely  
The group size was about right. I disagree completely     I agree completely

Comments:

## Your own participation and work

To what percentage did you participate in the scheduled teaching activities?  
Lectures:                      Problem sessions:                      Other:

How many hours per week, scheduled time excluded, did you spend working with the course?  
During the major part of the course:                      During the last week:

The course was: not demanding enough    too demanding
