

Registration

▷ PhD-students will be registered when I report their results to the PhD-Ladok system. I need name, personal number and school (Chalmers or GU) to do this.

Undergraduate and master's students:

▷ Chalmers: you can register using the Student Portal, but if the deadline has passed, contact your Student Centre to register.

▷ University of Gothenburg:

- you will be registered if you are on Jeanette's list.
- if you are not, you should register through **studera.nu**
After a few days Jeanette will send you an e-mail.
Even if you have applied through **studera.nu** you may not be on the list, there is a delay of five days.
- if you are re-registering, contact Jeanette.
- if you cannot apply through **studera.nu** (problems with pre-requisites) contact Hans.

I am not allowed to register anyone, but I need my private list to keep track of assignment.
