

Application and registration

Chalmers:

▷ PhD-students will be registered by the math-department when I report their results to the PhD-Ladok system.

I need name, personal number and school to do this.

▷ Undergraduate and master's students:

You can apply and register using the Student Portal, but if the deadline has passed, contact your Student Centre.

University of Gothenburg, including non-math PhD-students:

- you can register using the Student Portal
- if you have not applied, apply through **antagning.se** which you can reach through the Student Portal
- citizens outside EU/EEA must apply as programme students or they will have to pay extra fees
- if you cannot apply through **antagning.se** (problems with prerequisites) contact Hans
- if there are other problems contact Jeanette

I am not allowed to register anyone, but I need my private list to keep track of assignment and report your results.
