Textbook

Montgomery, Douglas C., Statistical Quality Control; A modern introduction, 6th edition. International student version, Wiley 2009.

Main topics

Refer to

<http://www.chalmers.se/math/SV/utbildning/grundutbildning/kurser/fristaende-kurser-ms/msg600>
for a brief list of major topics.

Moreover

The course consists of lectures, guest lectures, home assignments and opportunities to pose questions. The final examination is written. The mark (U (Not passed), 3 (Three), 4 (Four) or 5 (Five) on Chalmers and U (Fail), G (Pass) or VG (High pass) on the University) will depend on the achievements on the home assignments and the written examination. Detailed rules for setting the marks will be determined during the course.

An activity plan will be handed out at the first meeting.
