## Aims and Scope

Eurasian Mathematical Journal (EMJ) publishes carefully selected original research papers in all areas of mathematics written by mathematicians first of all from Europe and Asia. However papers by mathematicians from other continents will also be considered.

From time to time EMJ will also publish survey papers.

The language of the paper must be English only.

EMJ publishes 4 issues in a year.

## Information for the authors

Submission. Manuscripts should be written in LaTeX or  $\mathcal{AMS}$ -LaTeX and should be submitted electronically in DVI, PostScript or Adobe Acrobat PDF format to the EMJ Editorial Office via e-mail [eurasianmj@yandex.kz](mailto:eurasianmj@yandex.kz)

On acceptance of the paper, the authors will be asked to send the tex-file of the paper to the Editorial Office.

The author who submitted an article for publication will be considered as a corresponding author. Authors may indicate a member of the Editorial Board whom they consider appropriate for the article. However, assignment to that particular editor is not assured.

Copyright. The acceptance of the article automatically implies the copyright transfer to EMJ. Manuscripts are accepted for review with the understanding that the same work has not been already published (except in the form of an abstract), that is not under consideration for publication elsewhere, and that it has been approved by all authors.

Title page. The title page should start with the title of the article, authors' names (no degrees). It should contain Keywords (no more than 10), Subject Classification (AMS Mathematics Subject Classification (2010) with primary (and secondary) subject classification codes), and Abstract (no more than 150 words with minimal use of mathematical symbols).

Figures. Figures should be prepared in a digital form suitable for direct reproduction.

References. Bibliographical references should be listed alphabetically at the end of the article. The authors should consult Mathematical Review for standard abbreviations of journals' names.

Authors' data. The authors' affiliations, addresses and e-mail addresses should be placed after References.

Proofs. The authors will receive proofs only once. Late return of proofs may result in publishing a paper in a later issue.

Page charges. There are no page charges.

Offprints. The authors will receive offprints in the electronic form.
