PhD Thesis

S. Larsson, *On reaction-diffusion equations and their numerical approximation by finite element methods*, thesis, Chalmers University of Technology, Göteborg, 1985.

Publications in refereed journals

1. C. Johnson, S. Larsson, V. Thomée, and L. B. Wahlbin, *Error estimates for spatially discrete approximations of semilinear parabolic equations with nonsmooth initial data*, Math. Comp. **49** (1987), 331–357.
2. S. Larsson, *The long-time behavior of finite-element approximations of solutions to semilinear parabolic problems*, SIAM J. Numer. Anal. **26** (1989), 348–365.
3. S. Larsson, V. Thomée, and N.-Y. Zhang, *Interpolation of coefficients and transformation of the dependent variable in finite element methods for the nonlinear heat equation*, Math. Methods Appl. Sci. **11** (1989), 105–124.
4. C.-M. Chen, S. Larsson, and N.-Y. Zhang, *Error estimates of optimal order for finite element methods with interpolated coefficients for the nonlinear heat equation*, IMA J. Numer. Anal. **9** (1989), 507–524. [[doi:10.1093/imanum/9.4.507](https://doi.org/10.1093/imanum/9.4.507)]
5. S. Larsson, V. Thomée, and L. B. Wahlbin, *Finite-element methods for a strongly damped wave equation*, IMA J. Numer. Anal. **11** (1991), 115–142. [[doi:10.1093/imanum/11.1.115](https://doi.org/10.1093/imanum/11.1.115)]
6. M. Asadzadeh, P. Kumlin, and S. Larsson, *The discrete ordinates method for the neutron transport equation in an infinite cylindrical domain*, Math. Models Methods Appl. Sci. **2** (1992), 317–338.
7. C. M. Elliott and S. Larsson, *Error estimates with smooth and nonsmooth data for a finite element method for the Cahn-Hilliard equation*, Math. Comp. **58** (1992), 603–630, S33–S36.
8. D. Estep and S. Larsson, *The discontinuous Galerkin method for semilinear parabolic equations*, RAIRO Modél. Math. Anal. Numér. **27** (1993), 35–54.
9. M. Crouzeix, S. Larsson, S. Piskarëv, and V. Thomée, *The stability of rational approximations of analytic semigroups*, BIT Numer. Math. **33** (1993), 74–84.
10. S. Larsson and J.-M. Sanz-Serna, *The behavior of finite element solutions of semilinear parabolic problems near stationary points*, SIAM J. Numer. Anal. **31** (1994), 1000–1018.
11. M. Crouzeix, S. Larsson, and V. Thomée, *Resolvent estimates for elliptic finite element operators in one dimension*, Math. Comp. **63** (1994), 121–140.
12. C. M. Elliott and S. Larsson, *A finite element model for the time-dependent Joule heating problem*, Math. Comp. **64** (1995), 1433–1453.
13. S. Larsson, V. Thomée, and S. Z. Zhou, *On multigrid methods for parabolic problems*, J. Comput. Math. **13** (1995), 193–205.
14. S. Larsson, V. Thomée, and L. B. Wahlbin, *Numerical solution of parabolic integro-differential equations by the discontinuous Galerkin method*, Math. Comp. **67** (1998), 45–71.

15. S. Larsson and J.-M. Sanz-Serna, *A shadowing result with applications to finite element approximation of reaction-diffusion equations*, Math. Comp. **68** (1999), 55–72.
16. N. Yu. Bakaev, S. Larsson, and V. Thomée, *Backward Euler type methods for parabolic integro-differential equations in Banach space*, RAIRO Modél. Math. Anal. Numér. **32** (1998), 85–99.
17. K. Eriksson, C. Johnson, and S. Larsson, *Adaptive finite element methods for parabolic problems. VI. Analytic semigroups*, SIAM J. Numer. Anal. **35** (1998), 1315–1325 (electronic).
