

Publications, Nanny Wermuth, 1987-1995

- Wermuth, N. (1987). Parametric collapsibility and the lack of moderating effects in contingency tables with a dichotomous response variable. *Journal of the Royal Statistical Society B*, **49**, 353-364. [\[pdf\]](#)
- Wermuth, N. (1988). *Introduction to the use of graphical chain model*. Berichte zur Stochastik und verwandten Gebieten. Mainz: Johannes Gutenberg-Universität. [\[pdf\]](#)
- Lauritzen, S.L. & Wermuth, N. (1989). Graphical models for association between variables, some of which are qualitative and some quantitative. *Annals of Statistics*, **17**, 31-57. [\[pdf\]](#) [\[low res pdf\]](#)
- Wermuth, N. (1989). Moderating effects in multivariate normal distributions. *Methodika*, **III**, 74-93. [\[pdf\]](#)
- Wermuth, N. (1989). Moderating effects of subgroups in linear models. *Biometrika*, **76**, 81-92. [\[pdf\]](#)
- Wermuth, N. & Lauritzen, S.L. (1990). On substantive research hypotheses, conditional independence graphs and graphical chain models (with discussion). *Journal of the Royal Statistical Society B*, **52**, 21-75. [\[pdf\]](#) [\[low res pdf\]](#)
- Cox, D.R. & Wermuth, N. (1990). An approximation to maximum-likelihood estimates in reduced models. *Biometrika*, **77**, 747-761. [\[pdf\]](#)
- Cox, D.R. & Wermuth, N. (1991). A simple approximation for bivariate and trivariate normal integrals. *International Statistical Review*, **59**, 263-269. [\[pdf\]](#)
- Wermuth, N. (1991). Frauen an deutschen Hochschulen. In: *Ringvorlesungen zu frauenspezifischen Themen*, Johannes Gutenberg-Universität, Band 2, 139-157. [\[pdf\]](#)
- Cox, D.R. & Wermuth, N. (1992). A comment on the coefficient of determination for binary responses. *The American Statistician*, **46**, 1-4. [\[pdf\]](#)
- Cox, D.R. & Wermuth, N. (1992). On the calculation of derived variables in the analyses of multivariate responses. *Journal of Multivariate Analysis*, **42**, 162-170. [\[pdf\]](#)
- Cox, D.R. & Wermuth, N. (1992). Response models for mixed binary and quantitative variables. *Biometrika*, **79**, 441-461. [\[pdf\]](#) [\[low res pdf\]](#)
- Wermuth, N. (1992). On moderating effects in the interactional and in the confounding sense, a reply. *Methodika*, **VI**, 5-7. [\[pdf\]](#)
- Wermuth, N. (1992). On block-recursive linear regression equations (with discussion). *Brazilian Journal of Probability and Statistics (REBRAPE, Revista Brasileira de Probabilidade e Estatística)*, **6**, 1-56. [\[pdf\]](#) [\[low res pdf\]](#)

- Wermuth, N. & Cox, D.R. (1992). On the relation between interactions obtained with alternative codings of discrete variables. *Methodika*, **VI**, 76-85. [\[pdf\]](#)
- Wermuth, N. & Cox, D.R. (1992). Graphical models for dependencies and associations. In: *Computational Statistics*. (Vol. 1), 235-247. Y. Dodge & J. Whittaker (eds.). Heidelberg: Physica. [\[pdf\]](#)
- Wermuth, N., Hardt, J., Kuras, I. & Streit, R. (1992). *Frauen an Hochschulen - Statistische Daten zu den Karrierechancen*. Studien zu Bildung und Wissenschaft. Band 105, Bundesministerium für Bildung und Wissenschaft. Bad Honnef: Bock.
- Cox, D.R. & Wermuth, N. (1993). Linear dependencies represented by chain graphs (with discussion). *Statistical Science*, **8**, 204-218; 247-277. [\[pdf\]](#) [\[low res pdf\]](#)
- Cox, D.R. & Wermuth, N. (1993). Some recent work on methods for the analysis of multivariate observational data in the social sciences. In: *Multivariate analysis: future directions*. 95-114. C.R. Rao (ed.) Amsterdam: North-Holland. [\[pdf\]](#)
- Wermuth, N. (1993). Association structures with few variables: characteristics and examples. In: *Population Health Research*. 181-203. K. Dean (ed.) London: Sage. [\[pdf\]](#)
- Wermuth, N. & Rüßmann, H. (1993). Eigenanalysis of symmetrizable matrix products: a result with statistical applications. *Scandinavian Journal of Statistics*, **20**, 361-367. [\[pdf\]](#)
- Cox, D.R. & Wermuth, N. (1994). A note on the quadratic exponential binary distribution. *Biometrika*, **81**, 403-408. [\[pdf\]](#)
- Cox, D.R. & Wermuth, N. (1994). Tests of linearity, multivariate normality and adequacy of linear scores. *Applied Statistics, Journal of the Royal Statistical Society, C*, **43**, 347-355. [\[pdf\]](#)
- Pearl, J. & Wermuth, N. (1994). When can association graphs admit a causal interpretation? In: *Models and Data, Artificial Intelligence and Statistics IV*. 205-214. P. Cheeseman and W. Oldford (eds.). New York: Springer. [\[pdf\]](#)
- Wermuth, N. & Cox, D.R. (1995). Derived variables calculated from similar responses: some characteristics and examples. *Computational Statistics and Data Analysis*, **19**, 223-234. [\[pdf\]](#)
- Wermuth, N. (1995) On the interpretation of chain graphs. In: *Bulletin of the International Statistical Institute, Proceedings 50th Session, Beijing*, Vol. 1, Invited papers, 415-429. ISI: Voorburg. [\[pdf\]](#)
