## Numerical Methods for Stochastic Differential Equations

## Stig Larsson

Department of Mathematical Sciences Chalmers University of Technology and University of Gothenburg

Manifolds and Geometric Integration Colloquia (MaGIC)

March 1-4, 2011, Finse, Norway

## Outline

$$dX(t) = \mu(X(t), t) dt + \sigma(X(t), t) dB(t), \quad 0 \le t \le T,$$
  

$$X(0) = X_0.$$
